

# barbed L-fitting LCNH-M5-PK-3

Part number: 35983

FESTO

Rotatable, with extended housing, for plastic tubing PAN, PUN, PP, PU, PR, with sealing ring.

## Data sheet

| Feature                                       | Value                                                                       |
|-----------------------------------------------|-----------------------------------------------------------------------------|
| Nominal size                                  | 2 mm                                                                        |
| Type of seal on screw-in stud                 | Sealing ring                                                                |
| Operating pressure complete temperature range | -0.95 ... 10 bar                                                            |
| Operating medium                              | Compressed air in accordance with ISO8573-1:2010 [7:-:-]                    |
| Note on operating and pilot medium            | Lubricated operation possible (subsequently required for further operation) |
| Corrosion resistance classification CRC       | 2 - Moderate corrosion stress                                               |
| Ambient temperature                           | 0 ... 60 °C                                                                 |
| Pneumatic connection, port 1                  | Male thread M5                                                              |
| Pneumatic connection, port 2                  | For tubing outside diameter 4 mm                                            |
| Materials note                                | Conforms to RoHS                                                            |
| Material housing                              | Steel<br>Zinc die-casting                                                   |
